Roblox is one of the most popular online games in existence. In my opinion, this game is extremely fun and great for all ages. Although I have been playing roblox for only about a month now, I still love the game so far. Roblox has a variety of different games in which you can play and I enjoy all of them. Another thing I have learned about roblox is that the company behind it is very kind towards their players. Although there are many things to be aware of when playing roblox, the game has many differences from other games and these things make it better than most.

Some have even started questioning how Roblox handles the games they host as well as some of their policies towards adult players/contents, and other problems like spam bots.

I love Roblox, but there are a few issues that I think need to be fixed. I have noticed that there is a lot of adult themes, and people swear a lot (which is not acceptable, it should only be in forums, not in game). It also needs more updates. In my opinion you should only take down the website if you combat online harassment or if someone steals someone else's idea. You can't create an account with your email address or password because the website doesn't know who you are. It only knows your username which is so unfair because someone could send harassing messages to other players without them knowing the real person. You should add more games and less glitches, with more updates. I really hope you take my suggestions into consideration, it would be great if you fixed all the big issues in Roblox.
