ROBLOX's Terms of Service has many loopholes which allows users to get away with nearly anything, such as selling products that have been stolen from other users or using bots for their own gain. The system is also very inconsistent in how it deals with complaints and bans. One of the more infamous examples is user "Sephiroth", who had been banned for attempting to distribute his game, "TitanMC". The ban was eventually lifted, and the account became widely regarded as a joke.[11]

On December 20th, 2021, ROBLOX announced that they would be adding system tokens to enable their users to "pre-order" an item before it is put on sale. This way users can give feedback and ROBLOX could make changes if necessary.[26]. In late 2021 when the game was seemingly more popular than ever, numerous reports were made about a player called "unikraken," as well as his group of friends he allowed in his places. This user was not banned from the site for a long time, which attracted

hordes of people to his server. The servers would become infested with bots, cheats, hackers and other fraudulent activities that it slowed the game for everyone. These servers have since been taken down and ROBLOX has removed as much of these malicious players' information as they could.[27]

Who would want to play a game like this? Nobody really I would think. It's just like Roblox in that you can buy stuff with fake money, but there is no value in either one of them. The real issue is that the developer(s) of both games are making a ton of money from people who don't care about winning or losing, they just want to have fun.

There is a rare item that can be found in some games called "the orb" which is a blue orb looking like thing. It comes from a sound that the game creator puts in the game and if you get it, it can be used as an attack to kill the enemy with or to do other stuff like make you invincible. The orb is very rare to get so it is not really good to use if you do not want to waste the item, but I think that this item should be more common, so we don't have to spend too many robux on it.

On multiple occasions, ROBLOX has been hacked into by outside sources. In one of the more recent hacks (2021), hackers took advantage of an exploit to provide themselves with unlimited build tools in games. Users without knowledge of the exploit were forced to leave the game because the tools were infinite and other players could not stop them. This issue was not fixed until two days later. [9] ROBLOX has a rule against using bots (automated scripts that allow players to automatically perform actions) but this rule can be easily bypassed due to the fact that users are able to easily create incredibly powerful bots with simple scripting. The easier ROBLOX makes it for users to create powerful scripts, the more likely they are going to be used in botting and/or spamming games. This is one of the reasons why user-created games like "The Plaza" have been taken down.

From June 12th 2021 to July 30th 2021, the Roblox network was under a major DDoS attack from a group called "Apophis Squad". This group was demanding that Roblox pay 10 million US dollars into their Bitcoin account or they would continue to perform DDoS attacks on the site. They also threatened to kidnap staff members and steal their hair if ROBLOX declined their offer. According to Roblox, this group caused 3.7 million dollars worth of damage.[103] The group also began sabotaging ROBLOX's YouTube channel by uploading offensive videos and ads towards users who clicked on it, which caused the platform to ban the channel in July 2021.

Trivia In 2021, ROBLOX created a game called "Tank Trouble" that was very similar to the popular game "Minecraft". This caused a lot of people to leave ROBLOX due to the lack of creativity and stealing other companies ideas. Later on, Minecraft and ROBLOX started exploring ways to work together which ended up in creating an official version of Minecraft on ROBLOX as well as adding multiple features from Minecraft into their site. The official version is called "Bloxburg" and the unofficial version is called "Roxburgh".

The robustness of the software has had a positive effect on its players, some of who have even used this tool to make a fortune. This is not surprising since thousands of other players do the same thing. The average Robux income for an average player is around \$65 monthly but it can easily go up to over \$100. The fresh Roblox developer out there might be able to create and sell their own apps or games. While making an app in Roblox is fairly easy, it might take longer than one would think before they're ready to monetize it.

On April 24, 2021 ROBLOX announced that Builders Club would now cost 5 USD per month. As of 2021, Builders Club is no longer offered. On October 10, 2021 it was announced that you could now make game passes and sell them in the catalog for ROBUX or BC (Builders Concession). This includes some advantages over Free Mode such as being able to add a game trailer video, change the description of the game and enable the Flashlight on other players' devices. New users will begin with 100 ROBUX which is \$1 USD when they sign up for a new account. However, any user may donate any amount of ROBUX to get more in return.

Robux. Robux is the currency of roblox that can be purchased with real money, although there are also other ways to receive them within the system of roblox itself. The way they work is very simple - you can use Robux to purchase in-game items, such as clothes for your character or even full-on animations such as dances and others. This adds a form of virtual economy to the game which adds depth and meaning into it - although the impact of the impact that this has on the game can be debated heavily depending on who you talk to. This means that, while there is a sense of the possibility of winning content within the game - there is no chance of getting content without paying for it.
